TIPS

THANKS FOR HOSTING!

Thank you for choosing to host a simulcast site for the 2024 Ignite gathering. While we wish you were with us here in Atlanta, we're grateful you've invited us into your homes and churches.

The Ignite simulcast will be a great opportunity to strengthen your ministry team, develop new leaders, impact families, and cultivate new relationships among the people in your congregation and/or small group. Make sure to promote the gathering broadly.

We want to provide you with some helpful suggestions that we believe will help you maximize your involvement as a simulcast site.

- Test your connection speed. We will be transmitting at 1080p so you will want to make sure your bandwidth is 5 Mbps or higher. If you notice an interruption in transmission or degraded video, make sure to ask people **not** to be on your WiFi network during the livestream.
- Have people arrive by 6:30 PM so that everyone is settled in and ready for the 7 PM live stream.
- Plan some time before the livestream begins to pray and welcome the Holy Spirit as a group. God comes to a prepared environment.
- Plan some time after the final session on Friday evening to debrief Ignite with those who have gathered together. Bless one another and pray for the Holy Spirit's continued work in each other's lives.
- Send us testimonies! We want to hear how the Ignite live stream impacted you. Email us at contact@collegeofprayer.org.
- Create a follow-up plan. Consider how you can use the simulcast as a launching pad for something deeper, like starting a new small group. We have many FREE small group video series at www.revivalnow.media. Don't let this opportunity come and go without follow-up!
